

# 2005 Digital Orthophoto Grid

MARKHURD's DOQQ (four quads NW, SW, NE, SE for each 7.5' map tile) data set contains 267 black and white, color, and/or color infrared (CIR) digital orthophotography quarter-quadrangles (DOQQ's 3.75' x 3.75') covering the 7 county Twin Cities (Minneapolis and St. Paul, Minnesota) metropolitan area. The DOQQ's are in UTM, Zone 15, NAD83 projection system and will meet or exceed National Map Accuracy Standards for map documents published at 1" = 1,000'. Each DOQQ has a ground sample distance of 0.6 meters (2.0') and is approximately 115Mb each (black and white) in TIFF format. The color and CIR images are approximately 350 Mb each in TIFF format. The DOQQ's are also available in MrSID format with file sizes ranging from 12Mb each for black and white to 17 Mb each for the color and/or CIR.

For additional DOQQ ordering and/or licensing information, please see MARKHURD's web site at [www.markhurd.com](http://www.markhurd.com) or call Dan Knutson at 763-420-9606.
